About me

I am an enthusiastic graduate with lots of experience working with Java, JavaScript and Python. I am knowledgeable about web technologies and natural language processing (AI) with a personal interest in graphics programming and the design of programming languages

Education

University of Sussex   2022-2025
Bsc (Hons) Computer Science - Achieved a 2:1
Key Modules
- Computer Networks - *Learning about networking*
- Software Engineering - *Practice working in an Agile development team*
- Advanced Natural Language Processing - *Learning about the inner workings of modern AI*

Watford Boys Grammar School   2015-2022
A-Levels:

- A - Maths
- A - Computer Science
- B - Physics

GCSEs:
- 8 Subjects, grades 7-9 including Maths, English and Computer Science

Work Experience

English's of Brighton Oyster Bar and Restaurant - Bartender   May 2024 - August 2025
Worked in a fast paced environment which required quick thinking, efficiency and good communication with colleagues and customers

Voluntary Experience

Scouts - Young Leader

Skills

- Proficiency in several programming languages including Java, JavaScript and Python
- Familiar with web technologies such as Spring and Nodejs
- Good communication skills and effective time management

Hobbies and Interests

- Programming - In my spare time, I expand my skillset by completing small solo projects
- Music - I play guitar often either alone or with friends
- Hiking - I enjoy wild camping and hiking, I have completed several camping expeditions in Dartmoor national park

Notable Projects

EoINPLA - A visual interpreter for INPLA, a language based on the interaction net model of computation.
Sudoku Solver - A sudoku solving application which implements Knuth's Algorithm X, I later adapted this to also generate sudoku puzzles
